

# uPASS Reach mounting accessories

## Key Features:

- Easy mounting of the TRANSIT UHF reader onto a pole or gooseneck
- Pole mounting kit
- Weather protection hood

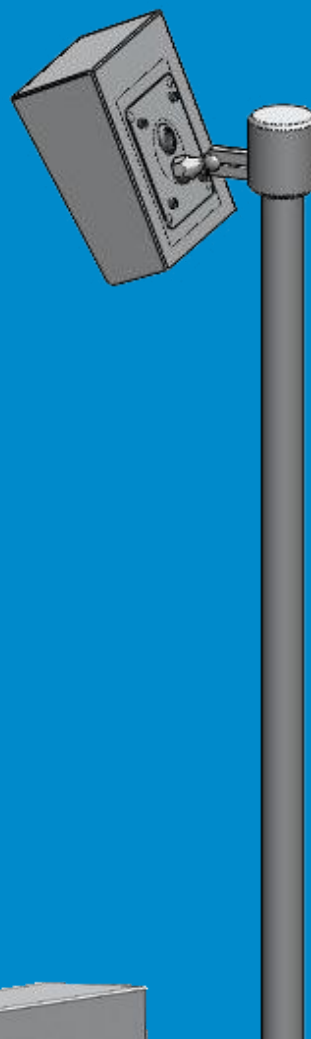

A full range of mounting accessories is available ensuring easy upgrade of existing proximity reader installations.

## Weather protection hood UHF

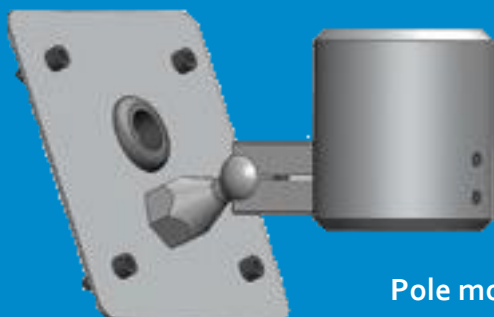

The weather protection hood can be mounted on the back side of the uPASS Reach or TRANSIT Entry reader. If the uPASS Reach or TRANSIT Entry reader is to be used in extreme wet or sunny weather conditions, it is recommended to apply a weather protection hood to protect the reader from direct water spray, rain or temperature rise by means of long lasting exposure to the sun.

## Pole mounting kit UHF

The Pole Mounting Kit can be mounted onto the weather protection hood of the uPASS Reach reader. The flexible mounting arms allow easy reader alignment. Additionally the kit is featured with all mounting brackets to offer simple installation of the reader onto a pole to the barrier arm (pole not included).
