

Video over LAN

Simplify HD Video Installations

EXTEND .DISTRIBUTE 1080P HD Video, 300 ft over LAN

Gigabit Ethernet Switch (not included)

HDDSX-TX Transmitter

HDDSX-RX Receiver

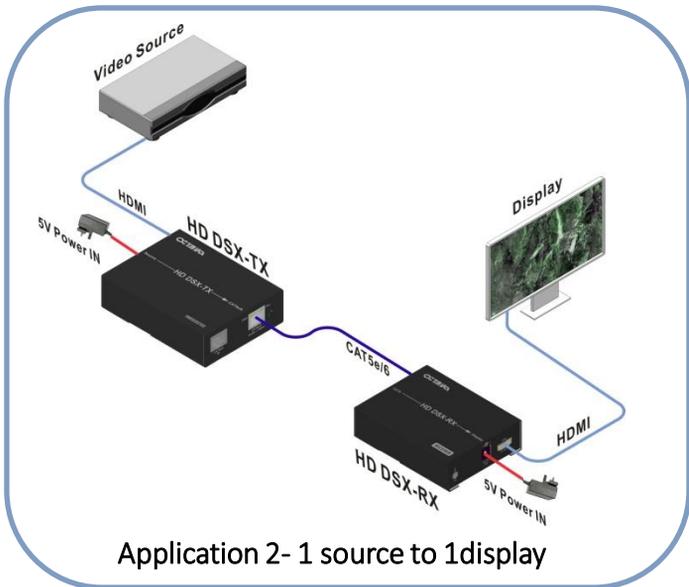

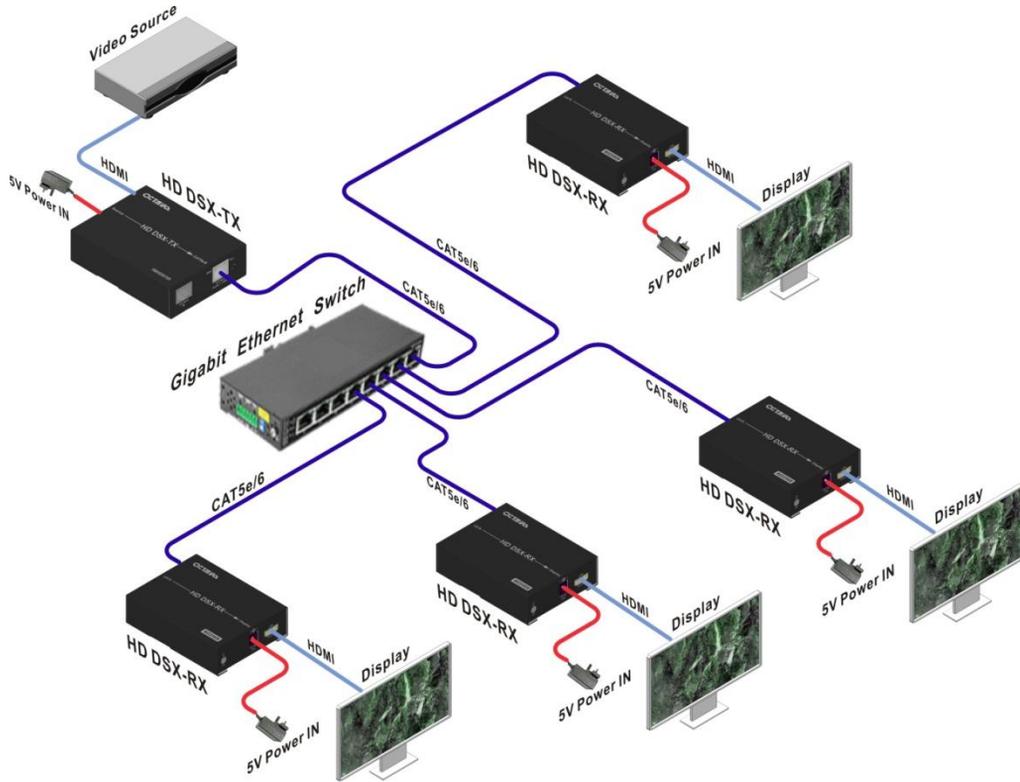

The Octava HDDSX- digital video extender is a scalable HD video distribution solution enabling the design of multi display systems using standard Gigabit Ethernet LAN. The HDDSX simplifies installation of HD Video system by using available CAT 5e/6 cable and Gigabit Ethernet LAN switch. The HDDSX utilizes advanced MJPEG techniques and IP protocol to deliver 1080p video up to 300ft over standard CAT5e cable.

Ideal for digital signage, house of worship, education, hospital applications requiring multiple displays over longer distances using existing LAN infrastructure.

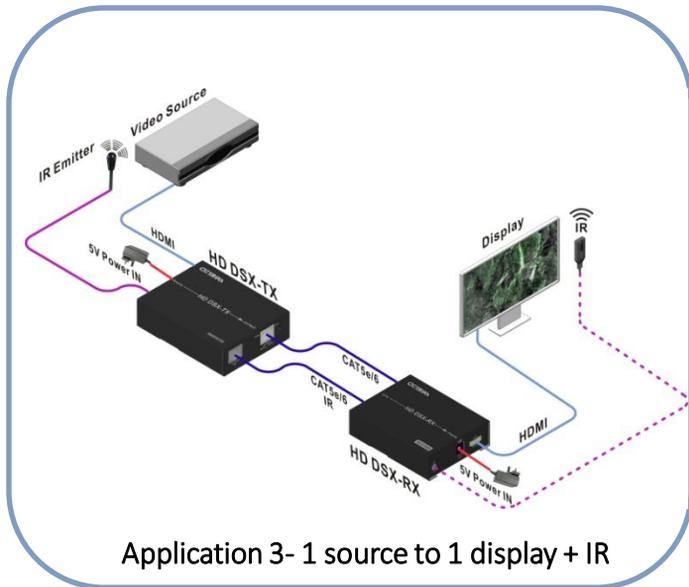

Features:

- Distributes HD video over 1 single CAT5e/6 cable up to 300ft
- Scalable design allowing multi display systems over Gigabit Ethernet LAN
- 1 to 1 or 1 to many architecture
- Extend to Multiple displays using Gigabit Ethernet Switch.
- Supports 1080P.
- IR control can be carried on a second CAT 6 cable for point to point applications. (optional)
- Installation mounts included
- Simple to install, simple to expand. No complicated configurations necessary.

Application 1- Multi Display system . 1 source to multiple displays

Application 2- 1 source to 1display

Application 3- 1 source to 1 display + IR

Parameter	Specifications
HDMI Inputs	1
HDMI Outputs	1
Link Distance CAT 6 Output	300ft . CAT5e or CAT6
Video Resolution	480P , 576 i/p, 720P, 1080 i/P
Audio Support	2 ch PCM audio
Infrared IR Port	IR Extension requires a 2 nd CAT6 cable (point to point only). See application 2 in the application diagram.
Dimensions	Transmitter Unit : 3.21 x 4.17 x 1.13 in - 8.15 x 10.6 x 2.87 cm (W X D XH) Receiver Unit : 3.21 x 4.17 x 1.13 in - 8.15 x 10.6 x 2.87 cm (W X D XH)
Mounting Tabs	Included
Power Supply	5 VDC included
